Environmental Policy Statement – December 2021

We at Boiler & Plant Dismantlers recognise that good environmental management is good business practice, the avoidance and reduction of waste makes for a sound business plan and as such, we will require all contractors and operatives to conduct their activities in a manner, which as far as is practicable will minimise adverse effects on the environment.

The Company will maintain an awareness of all legislation, regulations and codes of practice on environmental matters through our Health, Safety & Environmental manager and take all reasonable actions to ensure compliance.

While our works are in progress, Directors, Managers and operatives will take reasonable precautions against environmental damage, disruption or nuisance on or adjoining its place of work. Furthermore they will at all times endeavor to keep the site clean and tidy, and to avoid pollution of the air, ground or water by noise, fumes, dust, discharges or the disposal of construction materials.

We will, wherever viable and consistent with our client's needs and expectations, use materials and products from sustainable sources and that are re-usable or can be recycled.

Boiler & Plant Dismantlers have produced a set of procedures, which will provide guidance on the environmental issues that we face in today's site and working environment. These procedures will set the minimum standard that we expect.

The company holds a waste carrier's license and all waste including hazardous materials will be disposed of in the correct manner and supported by the relevant documentation.

We as a company believe and enforce throughout our business the need for sustainability and are constantly reviewing our procedures

This policy statement may be amended, monitored and reviewed as necessary to conform to new and amended legislation and Approved Codes of Practice.

Signed

Jeff Gold
Director
